Council Minutes of M.D. Battle River

Call for Tenders for Removing Brush in Block 4, Irma Cemetery—Protect Grounds from Noxious Weeds

The council of the municipal district of Battle River No. 423, met in the municipal office at Irma, Alberta, on Thursday, June 15, 1933, at 10 a.m. the reeve presiding, full council present.

Moved by Mr. Blakley that the minutes of May 11, 1933, be approved as read. Crd.

Moved by Mr. Dalton that the council lease for pasture purposes to E. Cartier of Fabyan, the N.W. 6-45-7-4th, from June 15, 1933, to April 1, 1934, for the amount of the current taxes, this rental to be paid on or before December 15, 1933; lease subject to 30 days' notice in case of sale. Crd.

Moved by Mr. Archibald that the crop share being one half of the whole crop, signed by T. H. Berreth, N. 1-2-17-44-8-4th, be accepted by this council. Crd.

Moved by Mr. Burton that the secretary forward on behalf of the municipal district all papers to the immigration department re deportation of William Cooper and family, such papers be approved of by the reeve before being dispatched. Crd.

Moved by Mr. Blakley that Mrs. Briault be continued on direct relief at \$12.00 per month until such time as the council deem necessary. Crd.

Moved by Mr. Blakley that the secretary write the attorney-general's department re N. Briault of Thorncroft, Ontario, non support of his wife and family. Crd.

Moved by Mr. Burton that the secretary assess for taxation all school lands under grazing lease or permit in each year as per section 342 M.D. Act 1926. Crd.

Moved by Mr. Burton that this council disapprove old age pension being granted to Mrs. A. E. Porter. Crd.

Moved by Mr. Burton that the report of Dr. Greenberg re Figginshaw and Bronson be accepted. Crd.

Moved by Mr. Blakley that Mr. Smallwood be appointed as a committee to go before the minister of health and attorney-general with Dr. Greenberg re Figginshaw and report their findings at the next meeting. Crd.

Moved by Mr. Vesey that the report from the old age inspector re application of W. L. Leemaster be received and that the inspector be instructed to make another report at a later date. Crd.

Moved by Mr. Blakley that the weed inspector's report be received and filed. Crd.

Moved by Mr. Dalton that the inspector's report of Mrs. Worthington mothers' allowance act be accepted. Crd.

Moved by Mr. Blakley that the report from the secretary re Jerace, Figginshaw, and seed grain accounts be accepted. Crd.

Moved by Mr. Blakley that the secretary order 20 10-lb. tins of aldicide weed killer and retail same out to ratepayers at cost. Crd.

Moved by Mr. Vesey that the reeve and treasurer of the municipal district of Battle River be and are hereby authorized to borrow from the bank of Montreal the sum of \$3,632.43 deemed necessary for school purposes and the sum of \$368.50 deemed necessary for hospital purposes, second quarter requisition. Crd.

Moved by Mr. Dalton that the report from the cemetery committee be accepted. Crd.

Moved by Mr. Burton that sealed tenders be received by the municipal district not later than 12 o'clock noon on July 13th, 1933, for the grubbing and removing of brush in block 4, Irma cemetery, being the width of 2 lots on the south side and 1 lot on the west side of said block; lowest or any tender not necessarily accepted. Further information can be had from the secretary. Crd.

Moved by Mr. Smallwood that the secretary write Mr. A. E. Peterson that this council forbid any person or persons hauling dirt to the Irma cemetery from lands infested with noxious weeds. Crd.

Moved by Mr. Blakley that the secretary advise Mr. Gultner that this council will exchange lots of the same valuation in the Irma cemetery on the condition that Mr. Gultner bears the cost of disinter permit if such exchange is made. Crd.

Moved by Mr. Blakley that owing to the financial condition of this municipal district the council are not in a position to make a grant to the Irma school fair. Crd.

Moved by Mr. Burton that W. H. Morse be appointed poundkeeper for division 5, place of pound being N.W. 10-48-8-4th. Crd.

Moved by Mr. Dalton that the statement for May, 1933, be accepted as presented. Crd.

Moved by Mr. Blakley that time sheet No. 5A: C. M. Steele, for \$216.00 be passed. Crd.

Moved by Mr. Burton that the following bills be passed and paid: Chas. Wilbraham, salary, May \$100.00

Secy-treas, petty cash, 32.52

Dr. Greenberg, re Cooper, 30.00

Richardson Rd. Mach, divs. 1, 2, 4, 5 and 6, repairs, 114.70

Imperial Lmbr. Co., divs. 4 and 5, material, 9.20

Moved by Mr. Archibald that council adjourn. Crd.

CHAS. WILBRAHAM, Secretary-Treasurer, M. D. Battle River, No. 423, Irma, Alberta.

Mark Solhaug Passes to Great Beyond, June 15th

The death of Otto Mark Solhaug, nephew of Mr. Olaf Johnson, of the Education Point district, occurred in the Wainwright hospital, Thursday evening, June 15.

Mr. Solhaug came to Canada with his sister Agnes and uncle in the fall of 1923 from Norway. For the past 14 months he had been working on the Coulman farm. Not feeling very well this spring, as soon as the seedling was done, he got leave of absence for a while to rest up. He was advised by his doctor to have his tonsils removed, which he did, in the Wainwright hospital. Shortly after returning to his uncle's home he suddenly became seriously ill and was taken back to the hospital and only lived a few hours. The cause of death was given as acute dilatation of the heart.

The only relatives of the deceased in Canada are Mr. Johnson, his uncle; and Miss Agnes Solhaug, his sister. The deceased was 25 years of age at the time of his death. The funeral service was held from the Irma United church, Saturday afternoon, June 17, and was conducted by Rev. J. R. Geeson. Interment took place in the Irma cemetery.

Dairy Herd Testing Obtains Good Results

Value of the cow-testing service carried out by the federal Department of Agriculture, in which some co-operation is given by the Provincial Department, has been attested to on numerous occasions. A recent survey shows that Alberta has 29 cow-testing associations, involving 422 herds and 5,098 cows of which 3,184 averaged 7,275 lbs., of milk and 274.28 lbs. of butterfat, with a test of 3.77 per cent. One thousand and eighty-two cows produced, and 92 herds averaged, over 300 lbs. of butterfat per cow this year.

ANNUAL U.F.A. CONVENTION WILL BE HELD AT LOUGHEED

The thirteenth annual U.F.A. convention of the Sedgewick constituency will be held at Lougheed on Thursday, June 29, at 10 o'clock in the forenoon. The speakers during the convention will be A. G. Andrews, M.L.A., W. F. Lucas, M.P., J. E. Brown, U.F.A. director; Mrs. J. L. Zipperer, U.F.W.A. director; Mr. J. Jessie Strang, from the central office of the wheat pool.

Hon. Mr. Lymburn, attorney-general for Alberta, will address a public meeting in the evening at 8 o'clock. Everybody is welcome.

Big Boxing Program in Elks' Hall, Thursday Eve., June 29

J. Walsh vs. Lefty Lukens—Georgé Scott vs. C. Reid—G. Grayston vs. Ronnie McLaren—G. Desmond vs. Wilbur Meyers, and Tuffy Peterson vs. Young Martineil Will Be Seen in Action

Viking, June 22. Another good boxing card has been arranged and promoted by C. A. Dupre and sponsored by the Elks' Community Hall Co. to be held in the Viking Elks' hall on Thursday evening, June 29, the program to open at 8:30 p.m.

For the main bout the promoter has secured the services of Johnnie Walsh, of Duvernay, Alberta, weight 196 lbs., amateur heavyweight champion of Alberta in 1932, who is turning professional. He has a notable string of victories to his credit having defeated Harden Libbert, of Cardston, for the amateur heavyweight belt, K.O'd Mike Kolak, of Edmonton, Louis Reinhardt, of Derwent, Jos. Puquette, of Winnipeg, and holds a decision over Earl Reynolds, of Camrose. He "was in town about a week ago and looks like a champ."

Pitted against the Duvernay dynamite is Lefty Lukens, of Irma, who is going to try to knock the pugilistic crown of the Duvernay titleholder. Lukens weighs around 190 lbs. and has stopped a lot of good boys on his way to the top. Ivan Nore, Nick Rudy, Battling Romo, Battling Mail, and Sid Pyke have all felt the jar of his knockout wallop. A glance at his record shows that the big boy hasn't lost a bout nor been knocked off his feet, not even his hair mussed so you could notice it. These behemoths of the ring are matched to go ten rounds, but we'll wager a used postage stamp that there'll be a vacant chair and a vacant state before that.

Hello, folks! Look who's here in a five rounder—George Scott, the Ruffian Rocket, and he is matched with Clarence Reid, now of Edmonton. He has seen what George can do, which is plenty, and this former citizen of our fair city, Ed Reid, is promised a hearty welcome back to the old home town. City sport writers, who know everything, even how to referee ladies' basketball games, have written some glowing accounts of the flying fists of the former fighter celebrity, so we ought to sit in on something worthwhile. Reid weighs 155 and Scott, 142.

Another new face will be introduced to the fans on this card in the person of Gordon Grayston, who hails from the Buffalo town, Wainwright, fifty odd miles east of this city. Those who know say Grayston is fast, and a good clean boxer. Ronnie McLaren has agreed to enter the ring with the pride and hope of Wainwright in a four-round go, and we

Successful Lawn Social

The biggest crowd, the most good eats, the nicest home-made ice cream and the best time, to say nothing of the tidy sum of \$38.65 was the outcome of the Lawn Social under the management of the Irma Ladies Aid held at the home of Mr. and Mrs. R. D. Smallwood last Wednesday afternoon. Everyone reports a real good time, the kiddies enjoyed the races and games and the two games of soft ball brought out a lot of hearty laughs. Especially the second game when the Irma regulars (girls) took a great deal of pleasure in fanning out such noted players: Prof. I. S. Reeds, (cyclone) D. Mathieson, and (past master) F. M. Hill.

The Ladies' Aid feel very grateful to the large crowd who turned out to make this such a success and extend a hearty vote of thanks to Mr. and Mrs. Smallwood for all their help and the use of their home.

Here's hoping we can have just as nice a day, time and crowd at another such an event some time in July.

Severe Hail Storm

Rather a severe hail storm visited part of the Irma district last Saturday night. Reports of considerable damage come from Strawberry Plains, Crescent Hill and on east of town. Large numbers of windows were broken, chickens killed and some gardens badly cut. From one farmer comes the report that the hail stones were so big and firm, enough ice was gathered after the storm to make a small freezer of ice cream. Can you beat that?

can promise from the perspective of past performances that there "ain't going to be no stalling" when Ronnie gets working his left and right hooks on the buffalo herder. The boys are evenly matched in weight, Grayston tipping the beam at 150, and Ronnie at 153.

Geo. Desmond will represent Kinsella, and Wilbur Meyers will carry the credentials of Irma, in a three-rounder. These gents have cavorted in the local ring before and throw a mean glove. Both know the game, so come prepared to see a good bout. As a curtain raiser, Tuffy Peterson and Young Martineil, of Viking, will set off the festive fireworks.

Mike "Kap" Kaplansky, the well known Edmonton sportsman, will again be the third man in the ring and will handle all the bouts. "Kap" has made a host of friends here during his previous appearances.

Pastboards for this show are \$1.00 for ringside and reserve; 75c for the rush variety. Look for posters out this week.

In case of bad weather this program will be postponed to Monday, July 3rd. Let's go!

School Fair Has Nine Schools in Competition

The School Fair for the Irma District with nine schools enrolled is going ahead these days. The gardens are doing fine and scholars are taking of what they will enter. It is hoped that all teachers are doing their part to make it a success. We have some nice specialties that will sell well working for. We are following the old Bulletin Prize List as near as we can and after the Board meets all teachers will be advised as to changes in plenty of time. No date is set yet. Following is a list of Specials now in and there will be others:

Dr. Greenberg, \$6.00 best bouquet of flowers, 5 prizes;
Carl Finch, \$3.00, most useful article made of wood, 3 prizes;
Blue Ribbon Co., \$5.00, 6 best tea biscuits, 5 prizes;
Brands B. Powder layer cake, 1st camera, second, fountain pen;
Foxwell & Johnson, 50 lbs. sack Merco flour for best loaf of bread;
T. Eaton Co., \$4.00 in merchandise, 5 prizes for best collection of sheet grain.

A. E. PETERSON, Secretary School Fair Board.

Dr. Greenberg to Address Avondale U.F.W.A. Meet

Born to Mr. and Mrs. Paul Meyers on June 16th, a son.

Under the auspices of Avondale U. F. W. A. Dr. Greenberg will give a health talk on Thursday, July 20th, at 3 P. M. at Avonlea school. All ladies who wish to come are cordially invited to attend. A picnic lunch will be served. No admission charge. Everything free. We would like to have as many ladies as possible take advantage of this health education. The little Dallow baby who has been in the hospital at Calgary for treatment on her foot arrived home on Monday the little foot much improved.

Mr. Meyers moved some 50 horses and an outfit to the stampered grounds on Monday to be in readiness for Wednesday's stampered

CARD OF THANKS.

Miss Agnes Solhaug and Mr. Alf Johnson wish to acknowledge with sincere thanks all kindness and sympathy received during their recent sad bereavement. A special thanks is extended to Mr. and Mrs. R. A. Larson and family; Mr. C. Brown and Mr. S. Prosser for their kind assistance. 23p

Heard at the ladies' bridge club: "Is your husband qualified for any special kind of work?" "Well, if there was a school for mules he certainly could teach them a lot about kicking."

"Wouldn't you like to eat some of the cake I made today?" asked a Mundare girl of her new Holden fiancée when he called one evening. "Didn't I say I was willing to die for you?" he replied.

Enjoy This Finer Quality

"SALADA" TEA

"Fresh from the Gardens"

Vacation Days.

Schools, all over this western land will soon close their doors for the summer months and tens of thousands of boys and girls will joyfully welcome the "holidays."

In offices and shops week by week employers and employees will for longer or shorter periods relinquish their tasks to enjoy their hard earned summer vacation.

Work on the farms will ease up a bit following Spring activities and during the period while the crops grow and ripen for the harvest.

In a word, Western Canada's short playtime period is at hand. It is a time to forget, as far as that may be possible, the worries and difficulties of the months of depression, and for the younger generation in particular every reasonable effort should be made to make the next two or three months as happy and health-giving as possible, with life lived largely in the open.

There will not be much money to spend, and vacation plans will have to be made upon a cheap scale by most people, but that is no reason why these holidays should not be just as enjoyable as if planned in a much more elaborate and expensive way.

Long journeys may be out of the question, but fortunately Western Canada has been blessed by nature with an abundance and variety of lovely summer resorts and camp sites which can be reached easily and at little expense, and where the daily cost of living is extremely low. Such a vacation will serve to remove the strain and worry of school studies and exams, which youth has been undergoing, and blow away the fogs of the depression in which all people, young and old, have been living. It will mean mental and physical vigor.

Fortunately, too, in this year when money is not a plentiful article, wherever to make trips to other provinces or countries, opportunity is being afforded right in the heart of Western Canada for a holiday which combines all the essentials of an enjoyable, worthwhile respite from daily toil—a holiday that will provide relaxation, entertainment and thrills combined with educational features and opportunities never before offered in this Western country, and all at small expense.

Reference is to the World's Grain Exhibition and Conference to be held at Regina during the last week of July and the first week of August. This will be a truly wonderful exhibition, a magnificent enterprise. Over Forty nations, states and provinces will be represented in the specially constructed quarter of a million dollar building, having a floor space of 148,000 square feet, and actually miles of exhibits. It will not only a sight worth seeing, but a great education.

A vacation visit to this great exhibition, which will be the result of three years of intensive preparation, will not be a costly one. For the people of the prairie provinces, the distance to be travelled is short, and specially low rates on the railways will make the journey within reach of most people, even in these days of restricted finances. A huge city of tents will be built adjacent to the exhibition grounds, with modern facilities provided, where groups and families can stay at the very minimum of expense, and will constitute an ideal outing for motor parties from all over the land.

Western Canadians, old and young, need not deny themselves a real and enjoyable vacation this summer. They owe it to themselves to take all the enjoyment and recreation they can from the opportunities afforded them. They will be better for it, whether it be the spending of a lazy time at some camp or small summer resort, or in a visit to the big world show at Regina. In any event they can get to know their own Western country better than ever before, and to appreciate it and its possibilities, and many of them can combine with it the obtaining of a glimpse of the world, and more especially of those nations which are engaged in the same major activity as the people of Western Canada, namely, agriculture.

So,—take a holiday. Pack the family in the old car and hike away to some new scene. Live in the open, rambling over the country side. Go fishing. Let the boys and girls paddle and swim, enjoy out-of-doors games, gather around the bonfire at night for an old time sing-song. Everybody will be the better for it.

Long-Lived Monarchs

None Have Occupied Throne As Long As Queen Victoria.

King George recently attained the 23rd anniversary of his accession to the throne as compared with the nine years' reign of his father Edward VII. Counting from 1154 when the House of Plantagenet was established he is now exceeded in length of occupancy of the throne by twelve others: Queen Victoria, 63 years; George III, 59 years; Henry III, 56 years; Edward III, 50 years; Elizabeth, 44 years; Henry VI, 39 years; Henry VIII, 38 years; Charles II, 36 years; Edward I, 35 years; George II, 33 years; Henry VII, 24 years and Charles I, 24 years.

Creation of "super sheep" giving more and richer wool, has been made possible through gland transplantation. Dr. Serge Voronov declared at Grimaldi, Italy.

Panama has modified its import duty on perfume "to encourage tourist trade."

Dickens delighted in ornamenting himself with costly jewelry.

Rotating Reserve Plan

U.S. Navy Department Abandons This System

The rotating reserve plan by which Admiral William V. Pratt, chief of naval operations, hoped to save a large sum through keeping one-third of the United States fleet in reserve has been abandoned by the navy department because a study shows the savings would be only \$5,000,000.

Secretary Claude Swanson, of the navy, said that only the destroyers and submarines now on a rotating reserve plan would be laid up at any time.

Historic Cottage Sold

Adam Bede's cottage in Derby road, Wirsbworth, Derbyshire, England, which was the setting for George Eliot's famous novel, "Adam Bede," has been sold by auction. The property belonged to a resident of Manchester and the new owner is W. Dooey, a local news agent, who paid \$975 for it.

Many thousand laborers are harvesting this year's large sugar crop in the Dominion Republic.

Palpitation of the Heart

Nerves Bad - Could Not Sleep

Mrs. Fred Bingham, Swift Current, Sask., writes:—"I was bothered with palpitation of the heart, and my nerves were so bad I could not sleep."

I was getting desperate and confided my trouble to a friend who recommended me to use Milburn's Heart and Nerve Pills. I purchased a box and got such relief I would gladly recommend them to all who are troubled as I was."

For sale at all drug and general stores; put up only by The T. Milburn Co. Ltd., Toronto, Ont.

Burning Ten Million Yearly

Figure Given As Forest-Fire Loss In Canada

Figures compiled by the Forest Service of the Department of the Interior show that the annual forest-fire loss in Canada for the ten year period 1922-31 was \$10,000,000. It is something that appals. Canada's forests are among the richest of her heritage, and the fact that we, the trustees of that heritage, should be sending it up in smoke at the rate of \$10,000,000 a year, is a blot upon our capacity as a people. The melancholy aspect of it all is that most of the fire-loss is the result of indifference, of a carelessness that will not heed warning or educational propaganda. We talk loudly about the exploitation of promoters and about the failures of the newspaper industry, yet all the time we permit or cause a condition which is doing more to ruin our forests than all the capitalists and greedy promoters combined. It is one of the discreditable things in our whole scheme of national economy—Ottawa Journal.

NURSE LOSES 7 LBS.

"I weighed 145 lbs.," writes a nurse, "when I bought the bottle of Kruschen Salts which I have just finished. I have taken a good half-teaspoonful in a glass of hot water every morning. Now I weigh 138 lbs., a loss of 7 lbs. I am very glad to have lost weight, especially without trouble."—M.H.R. (Trained Nurse).

Unlike most salts, Kruschen is simply a laxative. When you take Kruschen Salts you not only stimulate your liver and kidneys to function naturally and perfectly, but you supply every internal organ, gland, nerve and fibre in the body with Nature's own revitalizing and rejuvenating minerals.

Get a bottle of Kruschen Salts today, and take one-half a teaspoon in a glass of hot water every morning before breakfast.

Before the bottle is empty you'll feel years younger—eyes will brighten—step grow sprightlier—nerves steadier—You'll also soon enjoy good meals, and after a hard day's work you'll be ready for wholesome recreation—one million women already know all this.

World Meat Reserve

Experts Believe Reindeer Will Add Greatly To Supply

Experts believe that a great world meat reserve can be established in northern Canada, and that the millions of acres hitherto regarded as waste land will give the empire a useful and cheap addition to its meat supply. They expect that a vast business organization with a cold storage plant and transport installations will result from the successful migration of a large herd of Alaskan reindeer.

When the herd has developed sufficiently, timed reindeer meat and reindeer tongue—held to be a great delicacy—will be exported. The animals will be of the greatest use, as they provide their own food, even in mid-winter. They are generally regarded as the most widely versatile animals in the world.

Turks Eat Little Meat

Quantities Of Rice, Bread, and Fish Constitute Meal

One of the best ways of getting to know a man or a nation is to study what he eats. The inhabitant of Constantinople is a big bread eater and a tremendous rice eater. Strangely enough, considering what a fighter he is, he does not go in for meat very much. He will devour at a single sitting huge quantities of boiled corn, Indian corn, stewed barley, haricot beans, lentils, and Aubergines. He cooks in olive oil and will eat fish of any freshness—just out of the sea or in the last stages of decomposition.

One Kind Anyway

A clergyman one Sunday night preached from the text "Who is my neighbor" and showed that it was "He that showed mercy on him." And all along some of us thought it was the fellow who broke our snow shovel last winter, and would be along in few days to borrow our lawn mower.

What He Wanted

"I don't know about granting you another divorce, Jake," the judge said. "You've had three already and if I grant you another you'll simply go and get married again."

"Oh, no, judge your honor," Jake protested. "I ain't afigurin' on that 'tail-I-Jes' wants you to put me out of circulation."

"How far have you and your wife got in your plan to buy a new car?" "We've got to the point where we don't speak."

Bolivia has a shortage of merchandise, particularly luxuries.

Freight Shipments By Air

Imperial Airways' Report Shows London-Paris Business Growing

Imperial Airways reports latest available information on the growth of air-borne freight traffic show a definitely favorable trade balance as far as the United Kingdom is concerned. Officials of the company detailed improvement in freight traffic like this:

Goods air-borne between London and Paris during the first three months of this year were 30 per cent. in excess of those for a corresponding period of 1932, while, illustrating the trend of trade, goods exported by air during the first quarter of this year were three times more numerous than those imported.

Altogether, during January, February and March, 1933, more than 200 tons of freight were air-borne between London and Paris.

Considerable increases were also recorded in the weight of mails carried by air from this country during the first three months of this year, while passengers, flying between London and Paris, increased 60 per cent. during January, February and March as compared with similar months in 1932.

Traffic also continues to develop briskly on empire as well as on continental routes. Empire air mail loads, for example, show appreciable increases, while traffic generally is growing to such an extent, particularly on sections of our Africa service, that our carrying capacity has been amplified considerably by the employment of large aircraft.

Competing For King's Cup

Aeroplanes Of Many Types Entered For Race July 8

Aeroplanes of many types will race all day over the English countryside, extending 200 miles north of London, when the contest for the king's cup is decided July 8.

Airports, six of which are Royal Air Force stations, have been chosen by the Royal Aero Club as turning points in the race. They are: Felixstowe, Bircham, Newton, Cranwell, Desford, Wittering, Henlow and Upper Heyford. Desford is the only civil airfield in the circuit, but Royal Aero Club officials and observers will be stationed at each of the airports to see that competitors "circle the turning points properly."

Starting at Hatfield airport, just outside of London, the race will be flown in four rounds, each starting and finishing at Hatfield. Each round will be flown over 200 miles and must be completed without a stop.

Only British machines, entrants and pilots are allowed to compete, and all pilots, whether amateur or professional, must produce proof of having flown alone for 100 hours before the race. Almost every type of British-built plane will be seen in the race, and they will be handicapped according to engine power and performance.

Uncovers Roman Pavement

Farmer's Plough Reveals Rare Find Near English Village

While a farmer named Robson was plowing in a field at Rudston, a village near Bridlington, England, he noticed that the share turned up tiny squares of colored chalk. His curiosity aroused, he began to dig, and less than two feet below the surface he came across a Roman pavement.

Finally, he laid bare a stretch 54 feet by 15 feet, in which there appeared, with amazing clearness of coloring, the helmeted head of a Roman with floral decorations about it. A representative of the Yorkshire Archaeological Society saw the remains and pronounced them to be those of a Roman villa in a good state of preservation. There are two distinct pavements—one tessellated and the other in fine scroll work.

Served Higher Purpose

That bottle picked up on a Yucatan beach after bobbing 5,150 miles in one year from the day it was tossed overboard will be regarded—as having served a higher purpose in establishing the drift of ocean currents than in conveying a message to the mate's wife that he would be late in getting home for supper.

"Did you sleep well, sir?"

"Wonderfully! You remember I dreamed the night before last that somebody gave me a bad \$5 note? Well, last night I managed to spend it."

Overproduction, they say, has plunged agriculture into the fix it's in. That is, if there were not so many good farmers there would not be so many poor farmers.

MORE ENJOYMENT

Background For Exhibit

Map Of Canada Will Be Flood-Lighted At Chicago Exposition

History was made in Montreal when Gordon Hammond, internationally famous scenic artist, saw his latest effort, the largest map in the world, a map of Canada in colors, 30 by 130 feet, leave for the Century of Progress Exposition in Chicago where it will hang, framed and flood-lighted, as a breath-taking background for the Canadian exhibit in the great hall of the travel and transport building, in which the Dominion Government, the Canadian Pacific and the Canadian National Railways are participating.

The Canadian coat of arms in color, measuring approximately seven by eight feet and surmounted by the word "Canada" in huge cut-out letters, will hang from the centre of the map at the top and constitutes another record achievement in that it is the largest photographic enlargement made to date in the Dominion. The third record is that the complete map, models, dioramas, etc., have been completed in about three weeks, when ordinarily the job would have taken three months. The result has been a real triumph for Canadian artists, Canadian material and Canadian methods.

The huge map, of course, will be the main attraction, containing as it does farming and mining areas, national parks, both trans-continental railway systems on general lines, principal resorts and cities, and three large cartouches or inserts in which information concerning Canada as a land of opportunity for industry or tourists, is presented in condensed form. Its message is easy to grasp. Its huge size immediately impresses one with the vastness of the Dominion, and as one stands back from it, it is then that Mr. Hammond's ability becomes evident. One has the sense of being high above the earth looking down at a scene stretching from the Aleutian Islands in Behring Seas to Iceland and from the Arctic to Southern Illinois, in which every detail appears.

Solves One Problem

New York Church Replaces Choir With Record Music

The problem of maintaining a choir when economic conditions prohibit has been solved by the Presbyterian Church of the Convent at New York.

Photograph records of choir singing are played and amplified at the Sunday evening services. The congregation sings to the accompaniment of electrical transcriptions of the choir music from famous churches all over the world. It has been contended more elaborate programmes can be offered than it could present with its own reduced choir.

An Interesting Collection

The trustees of Shakespeare's birthplace are collecting in the manorial barn at Wilmore, Stratford-on-Avon, a display of ancient agricultural implements mostly of local manufacture and craftsmanship. An appeal has been made for gifts of old-time farming tools to help to illustrate the agricultural life of Shakespeare's England.

Employer: "You are, I suppose, strictly honest?"

Applicant For Office Boy's Job: "Yes, sir—but at the same time I understand that business is business!"

Nearly ten million narcissus bulbs were grown in British Columbia in 1931, while an equal number of bulbs of other species were also grown for the domestic market.

Stamp Fraud Laid Bare

Clever Machine Discovered In Britain To Defraud Government

Infrared ray, the remarkable scientific discovery which enables the camera to penetrate fog and darkness, has been the means of unmasking an astonishing elaborate fraud on the inland revenue.

It is understood that Scotland Yard has been investigating the matter secretly for many months past, and it has now become evident that many thousands of pounds are involved.

The conspiracy to cheat the exchequer has been worked with complete success for years by a clever gang, who have found a means of obliterating the cancellation marks on the stamps issued by the post office for the payment of income tax. Thousands of the stamped cards tendered by weekly wage-earners in payment of income tax have apparently been obtained by some means. The stamps have been steamed off, subjected to a cleaning process which has removed every mark of cancellation, and then sold at half their original face value.

The inland revenue authorities had not the slightest cause for suspicion until months ago, when someone noticed that the stamps had peeled off one of the cards sent to Somerset House.

It was at first surmised that the gummaker must be at fault. The cards and the stamps were sent to the firm concerned. The gum was analysed and found to be different from that they had applied.

Even then the fraud was not suspected, but when more and more examples of re-gummed stamps came to light, experts were consulted. They declared the stamps perfectly genuine, and the authorities remained mystified until some one suggested taking infra-red photographs.

Then the secret came to light. Numerous confessions have been obtained from income taxpayers who have admitted the purchase of stamps at half their face value from mysterious hawkers, and one after another of these hawkers have been found and interrogated, but the police have not been able to trace the reissued stamps to their original source.

Suggests Food Budget

U.S. Labor Department Gives Division For Every Dollar

Heavy purchasing of milk, vegetables and fruit "if you have very little money for food" was recommended by the U.S. Labor Department in a leaflet, How To Spend Your Food Money. The pamphlet proposed the following as the best division of every food dollar available: Milk, 25 to 30 cents; vegetables and fruits, 25 to 30 cents; eggs, lean meat and fish, ten cents; bread, flour and cereals, twenty cents; fat, sugar and accessories twenty cents.

Whalebone is not bone at all, but an elastic substance found in the mouths of whales.

CHAPTER XI.—Continued.

"Good Lord! And you've deserted, too, Ped."

"But I couldn't miss out on a trick like this, could I?"

Alan winced. Here was Pedneault mixed up in his trouble. Like an eager wolf-hound whom his master has left behind, Ped had chewed his collar and come along on the hunt.

"Where's Bill and Joyce?" Pedneault's face grew long, his eager excitement sobered down. He decided it was better to say nothing just now about Dave's suicide. Alan had enough anxiety paying on his mind.

"I'm thankful for that gasoline," Alan said. "And for you throwing in with us, Ped, at the price you'll pay. But I don't see how you can help. We can't carry a third person on this trip. I'll have to have room to work the machine gun—"

"Then I'll go in the launch." "You can't make it. Above the Alouksa forks there's twenty miles of low water that you can't get through."

"I can make it now. I know what the launch can do. After all these heavy rains, draining down that left fork from the Thal-Azzah... Look there—" he pointed at the water stage on a pier—"that's eighteen inches higher than when we made our first patrol after them. I can get through; and once I'm in those deep-water channels of the Thal-Azzah—"

"All right," Alan agreed. "You'll be a mighty big help. If they put us out of it, you'll be in position to carry on with them. Let's go up to the post and make our arrangements. You'll be leaving ahead of us."

Meeting Buzzard in the trading hall, he introduced Pedneault and explained. They went on back to the kitchen and worked out their plans.

Pedneault went to leave at dawn in the launch. Then the 'plane would leave at ten o'clock. Passing Pedneault just inside the Thal-Azzah, the 'plane would fly ahead, locate the bandits and bring them, to bay. The two craft would thus close in together for the battle.

There was but one hitch in the plan. All three men were aware of it, but no one mentioned it. Those bandits had Joyce with them; they could and would use her for protection. How could they be swept with a machine gun's deadly spray when she was with them?

It was something which had to be left to luck or fate. Alan gave final instructions: "If anything happens to the 'plane, don't try to fight those five men by yourself, Pedneault. Swing wide of them, go on east to that big lake I mapped for you, and join Bill there. Then the two of you fight them to a finish."

SIMPLY WORN OUT?

Take Lydia E. Pinkham's
Vegetable Compound

Can anything be more wearing for women than the ceaseless round of household duties? You have no time to be sick... you are tired... sitting... let cannot stop. There comes a time when something snaps and you find yourself simply worn out.

Lydia E. Pinkham's Vegetable Compound will help you get your tone action will give you renewed strength, and will make you feel like a new woman.

88 out of every 100 women who report to us say that they are benefited by this medicine. Buy a bottle from your druggist today... and watch the results.

W. N. U. 1907

He read the meaning of that gesture; Joyce was preparing for some sudden action; she was signalling him to be ready!

Without a whisper of warning, so swiftly and neatly that the bandits looked around in dazed bewilderment, she half-rose in the canoe, dived headlong over the gunwale, and disappeared.

It came so suddenly that for moments Alan himself hardly comprehended what she had done. When he did realize that she had given him his splendid chance, his finger tightened on the trigger and the Browning leaped into play.

For twenty seconds, till there was danger of Joyce reappearing, he flailed and swept the two canoes with a rain of bullets. He scorched one man, who jumped and yelled. The deadly hail drove them pell-mell in terror of their lives, into shelter of the nearest flags.

Fifty feet from where she had dived, Joyce reappeared a moment, cast a frightened glance back, tossed the disheveled hair from her eyes, swam a stroke or two, and then flipped under again like a young otter, making for a soggy reed bed on the other side of the lake.

"Low! Fly low!" Alan shouted into Buzzard's ears. "Sweep low over 'em. They'll try to get away again, if we don't force the pace now!"

With rifles snarling at them from flags below, with white puffs of smoke drifting away on the breeze, the 'plane banked and dived; and less than four hundred feet high, it soared over the bandits, its third time, its last and fatal time.

Nearly flung bodily by the quick wrenching manoeuvres, Alan braced himself and hung grimly to the Browning and ran a burst at the flags that the bandits were firing from. He killed a man; he saw the criminal fling up his arms and stagger and fall face down in the reeds and with water. With another burst, enflaming those flags from a side angle, he would have wiped out the other four.

But that chance was not given him. The thunder of the engine suddenly slackened, the motor spluttered and died; in place of the throbbing roar Alan heard only the swish of struts and hum of wires. In the sudden quiet he heard Buzzard's cry of consternation and saw his flight partner turn a white face toward him; and he guessed the engine had been put out of commission by those snarling rifles in the flags below.

The next instant, with those rifles still blazing away, a tremor seemed to hit the 'plane, as though other bullets had struck it. It lurched violently, its nose and right wing dropped, and it started a steep side-slip. With a gesture of sickened despair at the second mortal blow, Buzzard cut off ignition and battled with stick and rudder-bar to keep the 'plane from plummeting into the bog under keel.

Two-thirds of a mile from the bandits, it fell heavily into the water on one wing and pontoon, rocked a moment uncertainly, righted itself and floated—but disabled, useless, out of the battle.

(To Be Continued.)

Vault Defence Against Poison Gas Planned

Germany Proposes To Have Concrete Shelters Under Buildings. Germany is going to organize a powerful defence against poison gas attacks from the air.

Since she cannot build military 'planes she will concentrate on the protection of the civilian population against possible air attacks.

Conferences are being held in the newly established special aviation department of the Reich ministry of traffic to determine what sort of protection for the civilian population would be most effective and cheapest.

It is planned to construct bomb and gas-proof concrete vaults under the most important government buildings so that in case of an emergency, the highest officials could take shelter there and continue to keep the government machinery going.

Young Man (ardently)—I've never seen such perfectly dreamy eyes. The Girl—You've never stayed so late before.

OFF COLOUR? HOW IS YOUR LIVER?

Wake up your Liver Bile

—Without Calomel

Your liver's a very small organ, but it certainly can put your digestive and eliminative organs out of kilter by refusing to pour out its daily two pounds of liquid bile into your bowels. You won't completely correct such a condition by eating light meals, laxative candy or chewing gum, or roughage. When they're taken in excess, these things do you more harm than good. You need a liver stimulant.

Cher's Little Liver Pills will soon bring back the normal flow of your bile. They're gentle, pleasant, safe, and they're made by name. Refuse substitutes. See all druggists.

Razor Blades FREE with POKER HANDS!

Divorces In England

Seven Thousand Persons Divorced In Great Britain Every Year

One out of every 83 marriages in England ends in divorce.

There are now about 30,000 divorced persons in England and Wales—and 25 per cent. of them live in London. These are some of the facts revealed by the latest divorce records given in the register-general's annual report. Because divorce is now easier to get, more unhappy marriages are being terminated. As a result there are now five times as many divorces in a year as there were twenty years ago.

Men are petitioning for divorce in greater numbers. For years the records showed that it was the wives who got most of the divorces. But for the coming term of the law courts at which divorce cases will be tried there are 197 petitions filed by husbands and 351 by wives.

Although 7,000 persons in Great Britain are divorced every year, 66 per cent. of them re-marry. Two out of every three divorced men contract second marriages. And so do three out of every five divorced women.

But when they marry again they choose partners who have had no previous experience of matrimony. Only in one case out of ten do divorced men marry divorced women.

In three cases out of four divorced men marry spinsters. The spinster brides are usually under 30 and the husbands between 30 and 40.

In two cases out of three divorced women get bachelors for their second husbands. Most of the divorced women are from 30 to 35 and they generally marry bachelors about five years younger than themselves.

About one-half of the divorces occur within the first ten years of married life, although the general tendency is for divorces to take place later in life.

Many Protest Against Plan

Auto Drivers In Greece Do Not Favor Restrictions

Greece's new odd-even auto license idea is arousing much protest. The plan is that cars bearing even tag numbers may use the streets on certain days of the week and those with odd numbers the other days. The idea was to reduce imports of gasoline, but in Athens retail sales of "gas" have dropped less than three per cent. since the rule was enforced. One-car owners do not relish having their machines idle half the time. Taxi users in Athens complain that now there are not enough taxis.

Had Not Forgotten

Mayor David Coll, of Windsor, Ontario did the nicest thing we have read of for some time, says the *Lind* say Post. Himself a ragged newsboy some years ago, he used to save his pennies and buy flowers for his mother. This year he gathered hundreds of poor children in Windsor, who haven't even pennies, and gave them carnations and other blooms to take home for "Mother's Day." He paid the bill himself.

The ocean sunfish, sometimes called the ocean herring because the greater part of its length is taken up by its head, sometimes attains a weight of over 2,000 pounds.

Passengers flying between London and India can now obtain \$10,000 insurance for the trip for \$3.00.

A Rare Museum Exhibit

Ship Believed To Have Been In Earth Over 1,500 Years

After resting in the earth for more than 1,500 years, the oldest sailing ship ever found in Scandinavia now stands forth in its former splendor in the historic museum of Gothenburg, Sweden. The "Gallabek Ship," as it is called, was found about five years ago by a farmer while digging a ditch at Gallabek on Sweden's west coast.

It was carefully dug out and a considerable part of it was preserved to allow complete reconstruction, which was carried out by experts with infinite care. The ship, now shown for the first time in the Gothenburg museum, is about 14 metres long, clinker-built of oak boards joined with oak nails and beautifully shaped. It was undoubtedly a most seaworthy vessel, with considerable loading capacity, and carried a mast with a square sail. It could also be propelled by oars. By means of careful analysis both of the pollen attached to the hull and of the surrounding geological conditions the age of the ship has been fixed at about 400 A.D.

One interesting result of this unique find is the fact that the art of navigation is several centuries older in Scandinavia than what archaeologists have hitherto been able to prove, and the "Gallabek Ship" also reveals an advanced skill in ship-building at that remote period.

THE RHYMING OPTIMIST

By Alice Michels

VILLANELLE OF SPRING

I saw the nesting robin light
Upon the branch, with twig in mouth.
I sensed the feather thing's delight
In end of barren winter's drouth.
In spreading leaf and swinging bough
And warm wind blowing from the south.

The whistling farm boy with his plow,
The furrows deep and straight and long,
Gold daisies on the green hill's brow,
The rainbow butterflies that throng
The waving, many-colored grass,
All blend with nesting robin's song.

Anew the old enchantments pass
And lend brief magic to the earth,
Till ever eager lad and lass
Must joy in rosebuds' fragrant birth:
And share the nesting robin's mirth.

Hunting For King's Baggage

Sunk In North Sea Over 700 Years Ago Says Tradition

Fen Research Limited, London, England, is the name of a company formed to hunt for the famous baggage and regalia of King John lost in the waters of the Wash a little more than 700 years ago.

This is a change from the usual treasure hunts organized with an eye on Cocos Islands or the Spanish Main, and many think it probably will prove about as successful. Tradition says King John's baggage and regalia were lost in the Wash, and the company mentioned, appears to think tradition is right and is about to start digging for the lost treasure. It proposes to locate the treasure by "electrical divination." The Wash is a shallow bay of the North Sea, on the Lincolnshire and Norfolk coast of England.

Tents for dogs have just appeared in London.

Little Helps For This Week

"Thy servants are ready to do whatever my lord the king shall appoint."—2 Samuel 15:15.

I love to think that God appoints My portion day by day:
Events of life are in His hand,
And I would only say,
Appoint them in Thine own good time,
And in Thine own best way.

If we are really and always ready to do whatever the King appoints all the trials and disappointments arising from any change, great or small, simply do not exist. If I meant to write His messages this morning shall I grumble that He sends interrupting visitors, rich or poor, to whom I am to speak the messages, or to whom I am to show kindness for His sake. If all my members are really at His disposal why, should I be put out if today's appointment is some simple work for my hands or errands for my feet, instead of some seemingly more important doing of head or tongue—Frances R. Haver-gal.

Champion Jig-Saw Puzzler

Blind Man Claims Inability To See In An Asset

Stanley Wartenburg, 26, of New York, blind since childhood, is a champion jig-saw puzzler, and he claims that his inability to see is really an asset in putting the puzzle pieces together.

According to Wartenburg, color and lines in the puzzle pictures are handicaps to their rapid assembly.

His method is to first turn all the pieces either face up or face down and then sort out the border pieces, and then the other sections according to their shape. A remarkably trained memory is also a great asset. With his left hand he explores the curves of the pieces already assembled and with the right seeks their mates.

Wartenburg is industrial adviser to broom and mop makers in the New York workshop of the Association of the Blind. He has invented many pieces of machinery used by blind workers.

New Source Of Revenue

Railway In England Rents Forgotten Umbrellas To Commuters

Forgotten umbrellas have become a source of revenue for the Southern Railway of England. Notices are posted in suburban stations, offering to hire them out to passengers caught in a shower. Holders of commutation tickets can hire them for a rental of only a penny a day. The railway is also trying to find out what to do with the 2,500 sets of false teeth that are left in the trains every year.

The tourist industry is still one of Canada's main sources of wealth. Even this year it will probably represent "invisible imports" of more than \$200,000,000.

Main Street

Dr. Richardson, of Viking, has taken over the dental practice at Irma of Dr. Murray and will from now on visit Irma every Friday where he will continue to work in the rear of the Drug Store.

V. Hutchinson has a second-hand cream separator for sale.

Mr. Neil McMillan returned by car on Tuesday from a visit in Edmonton. Neil is suffering from a bad attack of rheumatism.

H. E. Park, who has been the past fortnight in Wainwright came home Saturday for the week end.

Mr. and Mrs. R. L. Eaton were Irma visitors from Kinsella on Tuesday last.

The company owning the Baldwin combine stored on Mr. Masson's property, shipped it away on Wednesday, June 21.

The Irma branch, Canadian Legion, have made plans for a celebration to be held on the fair grounds on July 17, to which the public will be welcome.

Some of the residents of the Irma district will remember Mr. McMillan, who homesteaded the S.W. 1-4 section 30-46-8, about 20 years ago.

It is reported that the U.G.G. agent at Innesfree will be transferred to Irma to take the place of Mr. Schon, who is going to Clive, Alta.

Dr. Greenberg and Mr. R. D. Smallwood motored to Edmonton on Friday, June 16, and returned on Sunday.

Mrs. L. B. King was removed to the Viking hospital for further treatment on Monday, June 19th. Mrs. G. N. C. Higginson, who has been attending Mrs. King, accompanied her as special nurse.

The half-year rate on car and truck licenses will take effect on August 1st.

Mrs. A. E. Peterson received a telegram on Wednesday last, saying her eldest brother, Charles, had died in Lyons, Nebraska, on Tuesday, June 20th.

The Irma Women's Institute sent Mrs. Schonert to Calgary, last Saturday to bring back the one year old daughter of Mr. and Mrs. Ted Dalow who had been placed in the Red Cross hospital by the Institute to be treated for a club foot. Mrs. Schonert arrived home on Monday morning with the child who is wonderfully improved.

Dr. Eric Richardson who has been in the hospital in Calgary under treatment is at home now convalescent. He expects to be fit after three or four months, and will spend most of that time with his mother, Mrs. F.W. Higginson.

Mrs. Garfield Coulman and little daughter spent part of last week in Edmonton visiting with Mrs. Coulman's mother, Mrs. Cole, who is reported doing well in the Royal Alexandra hospital after her recent operation.

Mr. Neil McMillan reported on Wednesday that his father, Mr. Donald McMillan, who has been living with his daughter in Northfield, Ontario, died on Saturday, June 17th, at the old age of 101 years, being born on March 23rd, 1832. He leaves to mourn his loss: three sons, John D., in Edmonton, and Neil and Mac on the farm at Irma; and two daughters, both living in Ontario. The late Mrs. McMillan, wife of the deceased, died in 1917.

Two aeroplanes arrived at Irma on Wednesday to attend the stampede north of town. These planes, the CP-ADN, Pilot MacMcNeal, of Moose Jaw, and the CP-AQU, Pilot 'Ernie Boffa, of Lethbridge, accompanied by Parachute Jumper Lunheim, landed in D. A. Glasgow's field south of the C.N.R. station. After having dinner and arranging with C. Anquist for a supply of gas and oil, they left for the stampede grounds, taking E. E. Sharkey as a passenger. They were prepared to take up passengers, and Mr. Lunheim would make some parachute jumps.

"I wish I had money enough to get married," remarked a Holden fellow while calling on a Bruce girl last evening. "And—what—would you do?" she asked, blushing. "I would do it travelling," he replied, and the temperature in the room immediately dropped ten degrees.

"Kindly tell me why a girl always closes her eyes when a fellow kisses her?" wrote a youth to the editor of a paper in a neighboring town. "If you will send us your photograph we may be able to tell you the reason," replied the editor.

Here is Owen Young's description in a recent director's meeting of how the business world is acting in the depression. "It strikes me," he said, "that we're all in the same boat with Christopher Columbus. He didn't know where he was going when he started. When he got there he didn't know where he was. And when he got back he didn't know where he had been."

How to Handle Sweet Clover When Haying

The best time to cut sweet clover is when the plants are in the early bud stage. On no account should the cutting be delayed after the first flowers begin to appear over the field. After sweet clover has reached the flowering stage the plant rapidly becomes woody and increasingly unpalatable as a feed for livestock.

In cutting sweet clover for hay the first crop should be cut high enough to permit a second growth. This growth does not come from the roots of the plant as would be the case with alfalfa but from buds or branches on the stem. Care has to be observed, therefore, to cut the crop high enough to leave some of these buds to start the second growth. In a thick heavy growth of sweet clover, sometimes some of the lower branches have died through lack of sunlight, so it is necessary to make sure that the buds or branches which are left are living. As a rule cutting at a height of five or six inches from the ground is usually quite safe although it is occasionally necessary to cut somewhat higher.

The simplest and most satisfactory way of cutting sweet clover for hay is by means of the binder, making the sheaves small and somewhat loose. The sheaves should be stacked in long narrow stacks running north and south. Even with good weather cutting is rather slow. Mould should be avoided as it may prove dangerous to stock. Stacking should be done in the same way as oat sheaves, preferably outside, and in long narrow stacks. Sweet clover hay does not turn rancid so the stacks should be topped with grass hay.

Sweet clover may be put up quite well in the ordinary way, cutting with a mower instead of a binder. There is, of course, a greater loss of leaves which is undesirable. It is usually necessary to have adjustable soles fitted under the shoes to raise the cutter bar of the mower high enough. The hay should be left in the swath until it is thoroughly wilted but not dry, after which it should be raked into windrows, or better still, made into small cocks and stacked when fit. Sweet clover will cure reasonably well if the cocks are made small enough.

The foregoing article is contributed to The "V" by J. G. Davidson, Dominion Experimental Farm, Indian Head, Saskatchewan.

Annual Appeal of Red

Cross, June 19 to July 8

The Alberta division of the Canadian Red Cross Society will make their Annual Appeal for funds from June 19 to July 8.

The aim of the Red Cross has been health and service. In Alberta, 18,147 school children have enrolled in the Junior Red Cross for the purpose of promoting health, happiness, citizenship and international friendliness. Eric Drummond, who was secretary general of the League of Nations, has stated:

"The work of the Junior Red Cross is helping in many ways to increase amongst the different nations knowledge of international peace, and to strengthen it is one of the greatest services that any individual can render both to his own country and to the world. I and all who are trying to work for peace cannot but wish success and prosperity to the Junior Red Cross."

The principal work of the Red Cross has been the care of the sick and crippled children. Since the Junior Red Cross Children's Hospital was opened there have been 1,939 sick and crippled children who have received medical attention; 1,073 orthopaedic cases; 407 eye, ear, nose and throat; and 639 other cases. In addition, the Red Cross Society provides:

First aid and home nursing for the sick.
Visiting housekeepers' service to motherless families.
Hygiene by mail for the remote settler.
Relief in emergency and disaster.
Visiting of ex-service men in hospital, and
Co-operation with existing agencies in problem cases.
You are asked to help carry on this humanitarian work by enclosing your contribution in the envelopes which are being distributed during the campaign in your district by Red Cross representatives.

Secret of Success

The editor of a country newspaper retired with a fortune. When asked the secret of his success, he replied: "I attribute my ability to retire with a \$100,000 bank balance, after thirty years in the newspaper field, to close application to duty, pursuing a policy of strict honesty, always practicing rigorous rules of economy, and to the recent death of my uncle, who left me \$98,500."

KINSELLA KERNELS

Mr. and Mrs. W. Horner returned from Edmonton on Saturday evening where they had been for the past week.

Mr. Third Sr., is spending some time in Edmonton.

Mr. and Mrs. W. L. Ferries and daughter and Mr. O. Watson Jr., spent last Tuesday evening at Hughenden.

Mr. George Horner of Winnipeg, spent Sunday with his sister, Mrs. J. F. Murray.

Mr. B. Wachter spent Sunday at his home here.

Quite a number of the members of the W. L. attended the regular meeting of the W. L. at Viking last Thursday.

A much needed shower passed over this place on Saturday. It was accompanied by a terrific wind but there was no hail here, but we understand in some of the districts near us they had hail.

Mr. Otto Lund and family of Bruce spent Sunday with the former's sister Mrs. P. J. Wangness.

Mr. and Mrs. Norman Urstadt and daughter of Owen Sound are visiting the former's sister, Mrs. E. C. Williams.

Mr. and Mrs. E. C. Williams and daughter and Mr. and Mrs. Norman Urstadt and daughter spent Sunday afternoon at Wainwright.

Miss Any Arkinstal spent the weekend with Miss Kathleen Ferries.

We are sorry to report that Stuart Arkinstal had to return to the Viking hospital.

Mr. P. Napier spent Saturday at Wainwright.

Mr. and Mrs. P. E. Jones and family of Irma and Mr. Fred Thoresen and Maat: Ralph Thoresen spent Sunday with Mr. P. Thoresen's daughter and family Mrs. T. Mackay.

Mr. Slusuruk who is working on the section C.N.R. at Irma spent the weekend at his home here.

Mr. J. Evansch of Bruce was a visitor here on Monday.

Of interest to many Kinsella friends was the party tendered Miss Nida Larue at Gr-nashields on Friday evening last by the Young Peoples Club of that district in the Community hall. During the evening Miss Larue who has resigned her position as teacher of the Greenshields school was presented with a handsome lamp as a token of appreciation of her services as teacher of the Club. Those present from Kinsella were Miss Lucille Maris, Miss Isabel McKie, Miss Kathleen Ferries, and Mr. John Beschell.

Notice of Sale of Impounded Animals
Under the Domestic Animals Act (Municipalities)

TO WHOM IT MAY CONCERN:
NOTICE IS HEREBY GIVEN that by virtue of power granted under Section 44 of the Domestic Animals Act (Municipalities), One Sorrel Stallion (4) years old, about 1,150 lbs., branded reverse G over Bar on left shoulder will be sold at the pound kept by the undersigned, on the S.E. 1-4 Sec. 32, Twp. 45, Rge. 7, west of the 4th meridian at (2) two o'clock on Tuesday, the 27th day of June, 1933.
Dated June 27th, 1933.
R. HEADON, Poundkeeper.
P.O. Fabyan, Alta.

"But didn't you suspect that the place had been robbed when you found the drawers pulled out of the furniture and the contents scattered around the room?" asked a Wainwright policeman of a lady while investigating a robbery there. "Why, no," she replied, "You see, I thought my husband had just been looking for a clean shirt."

"Can't you see that sign, 'No smoking'?" said a bus driver here to a traveling man who got on puffing a big cigar. "Sure, I see that sign," the man replied, "but there are so many dippy ones here. One says, 'Wear Nemo Corsets,' so I ain't paying attention to any of 'em."

R.M. Finances in Healthy State.

Rural municipal finances in Alberta, all conditions and depressions to the contrary notwithstanding, are in a gratifyingly healthy state, according to Hon. R. G. Reid, Minister of Municipal Affairs, who has been looking into the general record of the rural municipalities for the last calendar year and the first half of the present year. A reduction of fully 50 per cent in the liabilities of the municipal districts is shown. Collections have been maintained to a surprisingly marked degree. Less than \$18,000 was the total bonded indebtedness of the rural municipalities as at December 31st last. Outstanding bank loans were about \$500,000, with ample security by way of uncollected taxes and other realizable assets.

Little Accounts Hurt.

(An Editorial in The Kitchener, Ontario, Record)

Akin to the stinging of mosquitoes are the little accounts carried on the books of local merchants. Each in itself does not amount to much except as a cause of annoyance, but a large number of them may be serious.

These little items of fifty cents to a dollar—considered so trivial by those who owe them, that they are neglected—are a real problem to many firms. The goods that this money was used to purchase were bought by the merchant in a large quantity, with a correspondingly large bill that had to be met and paid when due. The merchant has had to find this money, sometimes with considerable difficulty. If, however, his customers would pay their small bills, the collective amount would see him through.

If the residents of this community would make it a point to clear up all their minor debts, they would be rendering a favor to our retailers out of all proportion in importance to the small sums involved.

This may offer a suggestion to the editors of other daily and weekly newspapers in Canada if merchants draw their attention to it.
